

Physician Credentialing

*“Providing incredible solutions
for physician credentialing process”*

Do you have the time and resources to do your Credentialing?

Many a times, physicians have to deploy resources such as capital, equipment, software and admin staff to deal with insurance reimbursement delays. More often than not, some of these issues can be avoided if only the credentialing process had been carried out properly and thoroughly.

DHS carries out and follows up the Credentialing process within the 30-180 days timeframe stated in the regulations

We adhere to the following process for Individual Provider, Group and Practice credentialing:

- Compiling initial provider information file (Degree, License, General and Professional liability insurance, SSN number, EIN, taxonomy number)
- Compiling information required for individual/ Group NPI
- Initiating enrollment and data entry on NPI
- Compiling information and initiating enrollment on CAQH
- Completing of applications as required by credentialing entities and resolving requests for additional information
- Completing, submitting and following up with payers to expedite the application process

Minimize payer delays with DHS's Credentialing Services

Without proper verification, payer delays and denials can increase thereby negatively affecting the physician practice

DHS verifies the following in physician credentialing to ensure better performance of your practice:

- DEA licenses
- State licenses
- Medicare sanctions
- Education and post-graduate training
- Hospital affiliations
- Difficult actions in HIPDB or NPDB records

How our services help you:

- Credentialed physicians will have more patients seeking their service
- Flexibility of choosing the best fee plan that will profit the physician
- Improvement in healthcare quality that meets industry standards

DHS's presence in the medical billing industry for over a decade lends it much credibility amongst payers and physicians alike.

Where DHS can make a difference.....

An outsourced partner can manage **Credentialing** process diligently and accurately to ensure timely payments and better physician and payer relationship.

DHS offers physicians' competitive rates on credentialing services to make it a hassle free process:

Option1	Charge by Physician	Number of Payers	Total Payable
	DHS charges \$ 240 per physician, per insurance	Recommended insurance list provided including commercial and Federal payers	Amount based on payers' chosen by physician
Option 2	Charge by Payer	Number of Physicians	Total Payable
	DHS charges \$1800 per insurance pack	When multiple providers from a practice want to be credentialed	Determined by number of Physicians

* Prices can be discussed as per volume
